

AHAVAHPREM SOFTWARE CORPORATION

Cloud Modernization, Enterprise Software Engineering, and Systems Integration

UEI: RMHFBDTM4E28 | CAGE: ODCQ8 | SAM Active | SBA Small Business | CA SB (Micro) Certified

CORE CAPABILITIES

Enterprise Software Engineering

- Custom software development and modernization
- Backend platform development and system reliability engineering
- Enterprise application architecture and lifecycle support

Cloud Modernization & Infrastructure

- Legacy system migration to AWS and hybrid cloud environments
- Secure cloud infrastructure design and deployment
- Cloud-native application architecture and DevSecOps integration

Systems Integration

- Integration of enterprise platforms, data systems, and APIs
- Modernization and integration of legacy enterprise applications
- Secure integration of distributed systems and cloud services

Data Platforms & Processing

- Backend data processing pipelines and scalable data systems
- Integration of structured and unstructured enterprise data
- Support for analytics, data engineering, and operational data systems

RELEVANT NAICS CODES

- 541512 — Computer Systems Design Services
- 541511 — Custom Computer Programming Services
- 541513 — Computer Facilities Management Services
- 541519 — Other Computer Related Services
- 518210 — Data Processing, Hosting, and Related Services
- 541715 — Research and Development in Computer Science
- 513210 — Software Publishers

DIFFERENTIATORS

- Founder-led technology company with 30+ years of enterprise software engineering experience supporting global enterprise environments.
- Specialized in cloud modernization, enterprise software development, and systems integration
- AWS partner ecosystem access supporting cloud migration and modernization initiatives
- Strategic technology partnerships enabling scalable delivery for enterprise and public sector projects
- Lean delivery model providing direct technical leadership and rapid execution

PARTNERSHIPS

- **Amazon Web Services (AWS)**
Cloud architecture, modernization, and migration enablement.
- **TD SYNnex Public Sector**
Technology enablement and cloud infrastructure delivery ecosystem.

COMPANY OVERVIEW

AhavahPrem Software Corporation is a technology company specializing in enterprise software engineering, cloud modernization, and systems integration. The company supports organizations transitioning from legacy environments to scalable, secure cloud and hybrid infrastructures.

AhavahPrem delivers structured technology solutions supporting enterprise platforms, backend data systems, and modern application environments. The company combines deep engineering expertise with agile delivery to support complex modernization initiatives across commercial and public sector environments.

RELEVANT EXPERIENCE

- **Enterprise Software Engineering -**
Development and support of large-scale enterprise platforms and backend systems supporting organizations such as **Zurich, AIG, and MetLife.**
- **Systems Integration & Infrastructure Engineering** – Integration of enterprise systems, telemetry platforms, and high-availability infrastructure environments.
- **Cloud Architecture & Data Platforms** – Design and deployment of secure cloud and hybrid infrastructure supporting scalable enterprise data platforms.
- **Enterprise Technology Modernization** – Modernization of legacy enterprise systems improving reliability, scalability, and operational efficiency.
